

# Ali Warshan

Ui Ux Designer

Mid-Senior

## About Me

Mid-Senior UI/UX Designer passionate about creating modern, clean, and interactive digital experiences. Skilled in web and dashboard design, motion graphics, and user-centered design workflows. Currently leading design projects at GraphiCode, crafting responsive websites, interactive dashboards, and engaging UI components. Dedicated to creating intuitive interfaces that enhance usability and engagement, while continuously exploring innovative design systems and solutions.

## Experience

### UI/UX Designer | Freelance / 2023 —→ Present Personal Projects

- Designed and prototyped modern websites and dashboards with focus on usability and aesthetics.
- Created interactive animations, hero sections, and dynamic project cards.
- Developed user flows and design systems for complex projects.
- Worked extensively on Figma, ensuring pixel-perfect designs.

### UI/UX Designer | 2024 —→ Present GraphiCode Projects

- Lead design for GraphiCode website including sections: Hero, About, Services, Projects, Courses, Pricing, Contact, Footer.
- Integrated animations, videos, and motion graphics to enhance user experience.
- Designed responsive and engaging dashboards for internal tools.

## Certifications

- UI/UX Design & Figma – Udemy
- Courses in Interactive Web Design, Motion Graphics, and Dashboard Design
